

Group Directive – Data Retention and Disposal Standard

Policy no:	GD-DR-007	Version:	2.1
Approved by:	Alex Morgan	Prepared by:	Jordan Lee
Effectuated/Review date:	12 May 2025	Last Review:	Q3 2025

Type: Standard

Policy Title: Data Retention and Disposal Standard

Policy Number: GD-DR-007

Applicable Sector(s): Group Holdings & Subsidiaries

Functional Area(s): Information Security, Legal, Risk Management, IT Operations

Brief Description: This standard establishes the minimum retention periods and secure-disposal obligations for records held across the group, including customer data, employee files, financial ledgers, and operational logs. It applies to all media — paper, electronic, and cloud.

Effective Date/Period: 12 May 2025

Approved by: Alex Morgan

Prepared by: Jordan Lee

Responsible Function(s): Information Security, Legal & Compliance

Responsible Function Officer(s): Chief Information Security Officer, Head of Legal

Supersedes: "Data Retention Policy v1.0"; GD-DR-006 (Effective 2018-04-01); "Legacy Email Archival Standard (Revised)"

Last Reviewed: Q3 2025

Applies to: All employees, contractors, third parties, subsidiaries, and global operations

Reason for Policy: This policy is required to comply with applicable data-protection regulations, reduce legal and operational risk from over-retention, and ensure consistent disposal practices across all entities. Because records of unknown age create discovery exposure, the group imposes a defined schedule and an auditable disposal workflow.

1. Purpose To define the retention and disposal obligations.

2. Scope All records held by the group, regardless of medium.

3. Retention Schedule See Appendix A for category-specific retention periods, ranging from 1 year (operational logs) to 10 years (financial statements).

4. Disposal All records past their retention date must be securely destroyed. Paper records are shredded; electronic records are wiped to NIST 800-88 standards.

5. Exceptions Legal holds override the schedule; records under hold are retained until the hold is released.
